

Alaska Rural Energy Conference

Galena Interior Learning Academy – Galena, Alaska

April 2 – 4, 2009

This conference will provide information on renewable energy technologies and projects including biomass, solar electric, solar thermal, river in-stream hydrokinetics, and energy efficiency. Learn more about recent legislation affecting renewable energy development and funding opportunities for these projects.

Presenters include YRITWC, Cold Climate Housing Research Center, Alaska Center for Energy and Power, National Renewable Energy Laboratory, ABS Alaskan, Renewable Energy Alaska Project, the Denali Commission and many more. (See that attached schedule for detailed information)

Come one, come all to this exciting event!

See attached registration form and contact information to attend

Contact the YRITWC Energy Department for more information.
